## Dome - EN

### Description

A dome is used to cover cheese on a BOSKA board. The dome ensures that the cheese doesn't dry out and stays fresh for longer. You can also store a board with cheese and the dome in the refrigerator.

BOSKA offers different domes: one for the Cheese Curlers and one for the Serving Board Round Friends.

Here's how to use it:

1. **Place the cheese:** Arrange the cheese on the BOSKA serving board or the BOSKA cheese curler.
2. **Cover with the dome:** Place the dome over the cheese and make sure the edge of the dome fits neatly onto the serving board or cheese curler.
3. **Storage:** The dome keeps the cheese fresh on the table and prevents it from drying out. Leftover cheese? Store the cheese with the board and dome in the refrigerator to extend its freshness.
