Pizza wheel(s) - EN

Description

A Pizza wheel is used to easily slice a pizza into slices. By applying enough pressure, the cutter smoothly "rolls" through the pizza, creating even pieces. The pizza wheel can also be used to cut flammkuchen and other dishes.

Here's how to use it:

1. **Hold the pizza wheel:** Grip the handle firmly, making sure the sharp edge of the blade is facing down.
2. **Slice the pizza:** Place the pizza wheel on the desired cutting line of the pizza and press firmly down while rolling the blade through the pizza.
3. **Repeat:** Repeat step 2 until you have the desired number of slices (usually 8 pieces, which means cutting 4 times).
